## Wallpaper\* Express exhibited at Compasso d'Oro ADI

As the prestigious Compasso d'Oro ADI design awards celebrated their 21st anniversary in Turin this June, the Wallpaper\* Express installation was among the nominees. The installation – created by Migliore + Servetto Architetti Associati for Wallpaper\* magazine with Bombardier – has also been selected to be shown in the XXI Compasso d'Oro ADI exhibition.

**The exhibition runs until 31 August 2008 in the Venaria Reale Turin.**

The Compasso d'Oro ADI award is universally regarded as the supreme accolade for originality, excellence and achievement in industrial design, and for more than 50 years it has played a major role in promoting Italian design worldwide.

The award was created in 1954 by Milan's La Rinascente department store to encourage 'product aesthetics' and boost Italy's nascent industrial design sector.

Editors' notes:  
Wallpaper\* Express was created for Salone del Mobile in Milan
