

Wallpaper* Handmade in New York

with

Fresh from Milan's Salone del Mobile, Wallpaper* Handmade, the groundbreaking exhibition dedicated to the marriage of craftsmanship and design, will arrive in New York for ICFF with several newly commissioned design pieces created in collaboration with British car manufacturer Jaguar.

Now in its fifth year, Handmade is traditionally hosted by Wallpaper* in Milan every April. Following its stopovers in London last October, where the exhibition was displayed across 12 of the windows of luxury department store Harrods, and in Miami for Art Basel in December, Wallpaper* has again teamed up with Jaguar to present a curated selection of Handmade pieces from leading designers, artists and manufacturers, including a brand new work created especially for the New York exhibition by local architects Snarkitecture in collaboration with Jaguar.

Wallpaper* Handmade will also exclusively introduce six new collaborations between Jaguar and designers Fredrikson Stallard, Moritz Waldemeyer and Mathieu Gustafsson, architects Neri & Hu and Vincenzo De Cotiis, and marble specialist Salvatori. The six new concept products commissioned by Wallpaper* each represent an avant-garde take on Jaguar's contemporary design, creativity and technology.

There will also be new works by several US artists, all commissioned by Wallpaper* editors. They include glow-in-the-dark wallpaper by Haas Brothers with Flavor Paper, a cork jacket by Todd Bracher, a lighting piece by Mary Wallis and Suzanne Tick, a 'Tablet Book' by Paul Loebach with Logitech, and glass-blown sex toys by Jeff Zimmermann and Wallpaper* US editor Michael Reynolds, to name but a few. The exhibition will also feature a specially made cut-away version of the F-TYPE Coupé, the new and powerful sports car from Jaguar.

Running from 16–31 May, the exhibition will be held in the 345meatpacking building, a new luxury development from DDG, on West 14th Street at the gateway to the Meatpacking District and West Chelsea. The exhibition is curated and designed by Wallpaper* using stone varieties from Caesarstone, the cutting-edge manufacturer of quartz surfaces.
